

# SIMPLIFY EDUCATION PRESENTS: *PROJECT IGNITE*

"Vulnerability is not weakness. And that myth is profoundly dangerous. Vulnerability is the birthplace of innovation, creativity and change."

- Brene Brown

Project Ignite is a story telling event, the first one in the series - engaging the youth in hard conversations relating to human connections and our inner emotions by learning from ordinary members who are doing extraordinary work in our community.

Topic: Vulnerability – Our Strength

Keynote Speakers: Felicia Chew, Sai Konkimalla, Coppelia Tarantal and Albert Alan

The keynote addresses will be followed by a panel discussion and a chance to engage with the panelists after refreshments.
